

# SOUTHERN ARKANSAS UNIVERSITY

Southern Arkansas University has a history of being student-centered. Time after time, students say they feel at home at SAU and that they feel like individuals rather than just a number.

Academic success is the number one priority at SAU, and students can choose from more than 60 undergraduate and graduate degree programs, including the new Computer Game and Animation Design program. Students are also encouraged to get involved in SAU's Complete College Experience through the more than 100 student organizations and the active campus life.

To find out more about SAU and the Complete College Experience, visit [www.SAUmag.edu](http://www.SAUmag.edu).
