Recruitment / Admissions

Data summarized in Section I (Recruitment/Admissions) is self-reported by students and captured during the ACT test registration process. Data reflects the information provided by the student on their latest test taken. To find more information or to more fully understand how these data are captured (questions asked, etc.), consider file delivery options. To review a technical guide to interpreting the data file please visit <https://encoura.org/act-test-resources>. ACT recommends that all institutions capture, store and integrate these ACT data from score-sending test takers into admissions and recruitment operations.

Section II

Academic / Student Support Services

Data summarized in Section II (Academic/Student Support Services) is self-reported by students and captured during the ACT test registration process. Data in this section offers insight into factors which, in addition to recruitment insights, have potential to impact academic or student support efforts. To find out more information on these and other data within this report, visit <https://encoura.org/act-test-resources>. There is great value to students and institutions when these data are integrated - beyond recruitment - into intervention and advising initiatives.

Section III

ACT Test Score Distributions / Course Sequence

Data summarized in Section II (ACT Test Score Distributions/Course Sequence) reflects self-reported data on high school course work as well as provides an analysis of student test performance relative to ACT college readiness benchmarks. Students who meet ACT college readiness benchmarks have a 75 percent chance of achieving C or better or 50 percent chance of B or better in corresponding college coursework. ACT readiness benchmarks are fully explained at www.act.org/content/act/en/college-and-career-readiness/benchmarks.html.
